I had so much fun making the kiddie beach card, I thought I would try and adult beach theme. I realized that once my card was put together there was no room for a sentiment. I welded together a beach ball image to make a mini beach ball card and added the sentiment to the inside.

STEP 1

My original project was going to be a beach scene for two! But as you can see the card was busy enough with just one! The file has extra pieces I cut and didn't use (but hey, now I have the start of another card)

STEP 2

The light house was made to resemble Ponce de Leon lighthouse in florida.
