## PROJECT CUT FILES

 [Chalkboard Dad's Tray.ccr](#)

## STEP 1

Select your tray and chalkboard paint of choice.

## STEP 2

I taped off the edges and then added two layers on to the tray, leaving 3 hours drying time between coats. This specific brand of paint stated to use a high density foam roller to paint it on. I tried that, but didn't like the results. It left a grainy finish. Instead, I used a sponge applicator that worked much better.

## STEP 3

Cut the design using white matte vinyl and the Cricut cartridge Chalkboard Fonts. I used transfer tape to move my design to the tray.

## STEP 4

All ready to serve up! [icameisawicreated.blogspot.com](http://icameisawicreated.blogspot.com)
