## STEP 1

So Easy! Just cut out butterflies in different sizes and stick on wall. I used the Artiste Cartridge, I love those butterflies. I do have a cut file with all different sizes on 12x12" papers. You can see it better in my video, you can see it on my blog. More info too. <http://melodylanedesigns.blogspot.com/2013/04/paper-butterflies-flew-in-my-window.html>
