STEP 1

I welded it together and manipulated the little stars a bit. You can download the cutfile here. I used Upcycle T-shirt and Feeling Groovy for the 3 letters u r a, if you don't have Feeling Groovy that you can delete those and use other or none.

I'm not sure how to explain how I added the colored paper behind the stars to make them rainbow, watch the video for that. You could just add a piece of rainbow paper or multiple papers like I did of your own choosing.
