A sweet ladybug frame, perfect for a nursery! Can personalize with anyone's color theme. The wings were made with vellum. The glass would've blocked the 3-D wings, so I placed it behind the project so parents could use it later, if desired. All cuts are from Kate's ABC's, but you need to hide the butterfly cuts. I've attached the exact CCR file I used for this project. This would also work for a bumblebee theme.
