PROJECT CUT FILES

STEP 1

First I made the Starbucks Drink Using the Fast Food Cricut Lite Cartridge, I used what they call the slushy and clicked Hide Contour for the stripe on the cup, so there would be no stripe. Cut the base out with green (Starbucks straws are green) and then used a metallic white for the next layer, and brown for the last layer.

I got the Starbucks logo from Google Images and right click on picture you choose and save to your computer and resize as you need it. I then used Glossy Accents over the cup to make it look like a clear cup. You can see all of this in the first video below.

STEP 2

I put the card together next. You can watch me do it in this video. I stamped the inside of the card with Happy Birthday and a cupcake. I made the bow with a fork.
