PROJECT CUT FILES

[trick or treat banner.ccr](#)

STEP 1

Download cut file for CCR I added lots of spiders in cut file and I will be hanging spiders from banner but have not done that yet. I show full directions in video but first you cut the letters out in red cardstock and then cover letters with Glossy Accents and let dry, move letters around a little while drying so they do not stick the surface you have them on, I used a straight pin to do that with.

STEP 2

After everything is cut stamp the black paper with a spiderweb stamp using grey, silver or white stamp, I think I used white.

STEP 3

Put the orange layer on after you stamped web. Apply the other cut outs and I laid them all on the table upside down and back wards, Put ribbon laying across the back. I cut 1"x12" stripe of black paper , ran it through my Xyron and then cut it into squares and stuck it over the ribbon. You can see that in video. I added the ghost with the black layer under the ribbon and the white layer on top of ribbon.
