Playful

Home Décor or Scrapbook layout. Bring the spirit up this Halloween with this welcome - warn sign. You can create a surprise effect with the emboss face expression over the frame or cut the image in white, either way it will be a fun project. I hope you like it.

PROJECT CUT FILES

[beware.ccr](#)

STEP 1

Sand Whitewash cardbord.

Cut the candle and frase image and glue the pieces. Dust the images with anti - static pouch; with the glue pen highlight where you want the bright effect, add emboss powder and emboss.

STEP 2

Cut frame, background and face expression.
With paper left over that comes from the machine (face expression) use it as a stencil; dust background with anti-static pouch, saturate with embossing stamp pad, add embossing powder and finally emboss.
Glue frame and background together.

STEP 3

With Blender Chalks and colorless blender marker paint shadow and detail over images, black and gray works great.
Glue the images over your cardboard and enjoy.
Happy Halloween!
