PRINCESS BANNER

Design by: MelodyLane (50 Projects)

About me: I love all my Cricuts and love creating things and sharing the cut files for Cricut Craft Room and making tutorial videos on most of my projects.

Project skill level: advanced

Project time: 2 hours to 3 hours

Project tags: Anniversary Baby Shower

Birthday Family Home Décor/Accents Wall

Décor/Wreaths/Banners Bridal Shower Graduation Retirement

Feminine House Warming Baby Boy Girl Kids Teen Baby

Cards BabyDécor Teacher Gifts/Cards Gifts Friends Home

A banner for a Princess. I used Cricut cartridge, Once Upon A Princess, Rock Princess, for the font, Edge to Edge for the flower back ground and Art Philosophy for the base of the banner. Ribbons and Rosettes for the rosettes.

CRICUT®: WHAT WAS USED

Once Upon a Princess Cartridge

Rock Princess Cartridge

Cuttlebug® Machine

OTHER MATERIALS NEEDED

boa - optional

white glitter paper

swirls embossing folder

spray adhesive

Action wobbles

glue gun

2 color of pink card stock

wood grain embossing folder

adhesive ATG?

STEP 1

I put the princess together and added tulle under the top part of her dress, you can see better in the video. I used white sparkle tulle and pink sparkle tulle. Added lots of glitter glue. Embossed her hair with a wood grain embossing folder and my Cuttlebug and popped up her bangs. I put her on the pennant with an action wobble.

STEP 2

I assembled the unicorn and butterfly and added glitter glue, lots of it. The wing on the unicorn I only stuck on the bottom, to give it a look like he was flying. and put the unicorn on an action wobble. Again watch the video.

STEP 3

The word princess was from Once Upon A Princess and I cut out the layer and shadow, I popped up the top layer with pink foam adhesive I made myself. I then adhered it to white glitter cardstock and cut around it. I also added glitter glue to the word.

STEP 4

I used the Edge to Edge cartridge and cut out the flower back ground at 11" and then added spray adhesive to the back of it and placed to pennants, one on each end on to it and then cut around pennant, please watch video to know what I am talking about.

STEP 5

I cut the letters from Rock Princess with their shadow. I used the Cuddlebug and swirls folder on the top layer of letter only. I made rosettes using the crown rosette from Ribbons and Rosettes Cricut cart. I used Hot glue on rosettes and letters to rosettes.

STEP 6

I used a pink boa to string everything together.
