PROJECT CUT FILES

 Polaroid frame.ccr

STEP 1

Cut 2 of the faux polaroid frame using the provided cut file. Adhere them together for a thicker frame. Stamp sentiment (I heat embossed mine in black).

STEP 2

Cut the owl from Create-A-Critter and all of its layers at 2.25 inches. Glue layers together and pop up the last light teal layer with some foam tape.

STEP 3

Cut a piece of pattern paper to fit behind the frame. Adhere frame to pattern paper. Lightly ink edges of frame/pattern paper with light brown ink. Adhere owl die cut to the pattern paper inside the frame

STEP 4

Cut a piece of kraft cardstock in half at 5.5 inches (lay it landscape to cut it). Crease and fold at 4 1/4 inches. Cut a piece of complimentary pattern paper for card front at 4 x 5 1/4. If desired, cut a thin scallop strip for the bottom of the card.

STEP 5

Attach faux owl polaroid to card front.
