Baby Card Moon & Stars was made by using Cricut shapes from "Sleep Baby Layout" project, this was featured as the "Free Cut" for the week of Feb 16, 2014. This is a simple card. I didn't need any cartridges (I listed the "Paper Pups" cartridge, because it has a really cute moon), but everything I needed was on the download CCR file: 201200653\_B Sleep Baby Layout.ccr - Which I just noticed, you can purchase. The "Sleep Baby Layout" is under \$2.00. It's so worth it, you can't purchase a card like this for under \$2.00. Just go to [Cricut.com](http://Cricut.com), than click on SHOP, search for "sleep baby layout" and you can buy it digitally. Happy Cricuting! Chirp chirp!
