CRICUT®: WHAT WAS USED

Nifty Fifties Cartridge

Cricut Explore®

STEP 1

I had to weld a square and the top of the bread that the image came with to have an actual slice of bread. I attached the words to the top layer so that my explore will write after it's been cut.

STEP 2

Cut the toaster and the mitten. Make sure to mirror the mitten and glue them back to back. I added a ribbon for an extra texture.

STEP 3

After 2 slices of bread were made, I've attached the "Love, Sharon" on the back of the toaster. Make sure to cut 2 of the black front part of the toaster to make it stand. I used a thick glue dots so that it could stay visible on top.
