STEP 1

Then I chose an embossing folder from the Decorative Tile set. Then I cut two frames for around the star and then embossed my card and assembled. Finished it with a pearl center!

STEP 2

3 coordinating card stock patterns

STEP 3

Using Craft Room I made a triangle then copied it and flip it to form a square and determined the size I would need for the card size. I cut 16 triangles of the bright pink, 8 of the striped and 8 of the white. Then I cut a white square the size of finished star. Starting at center lay out the pattern onto the white square keeping things as square as possible.
