PROJECT CUT FILES

Triangle K-Cup Box.ccr

STEP 1

The triangle box is from Sweet Tooth Boxes cut at 9.5, with hide contour on the box insert adding six 1.6 circles instead from Craft Room Basics. The tree shape for the window is also from Craft Room Basics. I have included the CCR file, which also includes a Valentine version. Enjoy!
For those who have left comments regarding the cut file -- hope this helps: So sorry you are having trouble with the file. It is a file you download and open in Cricut Craft Room, not a .pdf. I just tested it and it worked, these are the steps I took (on a PC): Click on the file link above called Triangle K-Cup Box.ccr -- You will be asked if you want to Open or Save the file, select Save and it will be downloaded to your computer. Log in to Cricut Crafrroom Select "My Projects" at top of screen. Click on "Import". Navigate to the file on your computer. Select the file and it will appear first on the list in Craft Room. Select it and it will load, then you can proceed to Cut.
